1. The following is an examiner's statement of reasons for allowance: Applicants show a method for treating a primary lung cancer or a metastatic cancer to the lung in an individual by delivering to the respiratory tract a nebulized liposomal aerosol comprising a dilauroylphosphatidylcholine (DLPC) liposome containing camptothecin. The reference Knight et al. (US 5,049,388) shows a method of treating a patient by introducing into the respiratory tract aqueous aerosol droplets comprising liposomes and the medication consists of anti-cancer drugs. Knight does not expressly teach camptothecin. The reference Burke (US 5,552,156) shows liposomes comprising camptothecins, but does not teach an aerosol delivery of camptothecin. Waldrep et al. (US 5,958,378) shows a DLPC liposome aerosol containing a drug. The prior art references do not teach the dose of camptothecin that is delivered to the respiratory tract by a nebulized liposomal aerosol.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 2-11 and 19 are allowed.

Claims 1 and 12-18 were cancelled.
